

Ancient Roots Israel

Herbal Conference & Community

December, 21, 2021

PRESS RELEASE

RE: ARI Herbal Conference 2022

To Our Treasured ARI Community,

I am again saddened to need to postpone the ARI International Conference for 2022.

The government restrictions on travel worldwide prevent us bringing in the world class international speakers and participants that we have come to expect at our ARI conference. In addition, local restrictions of the so-called "Green Pass," which directly violate the Nuremburg Code, prevent us from holding a local conference.

Please take the time to join our very active group on [Telegram](#) and our back up group on [Signal](#) to share with me what you want and need to keep your herbal knowledge growing so that we can consider our options for alternative offerings which may be helpful to you.

Sending Warmth in the Cold,

J. Rivkah Asoulin
Founder and Executive Director
